COLLEGE

PROFILE

I am a 28-year-old self-taught front-end developer who is eager to work in a team setting on larger-scale projects. My degree is in Nutrition but I'm looking to pivot into the tech space. My goal is to become a full-stack developer and would love to be able to work with talented devs to learn and grow my skills while also contributing to exciting projects.

PROJECTS

VIDEO GAME DB APP (React, Redux + Axios)

- Uses Rawg API to query popular games & displays details
- Framer Motion for UI animations + Styled Components
- React Router to navigate

[Hosted Site](#) [Git Repo](#)

COLOR-PICKER APP (Vanilla JS + Chroma.js)

- SPA that generates random color palettes
- Ability to modify HSL spectrum for each color
- Saves palettes to local storage

[Hosted Site](#) [Git Repo](#)

MUSIC PLAYER APP (React)

- Song Info stored in separate data file with ability to add and remove w/o impacting functionality
- Clean UI styled with SASS

[Hosted Site](#) [Git Repo](#)

WORK HISTORY

UNITED HEALTHCARE

Sr. Provider Data Analyst

DEC '17 - PRESENT

Assisted leading a team of 20 agents by providing process related support and handling uncommon/"one-off" situations.

Provided support for large groups of healthcare providers by addressing errors in billing info in the UHC database.

Helped dev team test front-end UI for agents to use to collect providers demographic info for UHC member directories.

STRIVE PERFORMANCE & FITNESS

Front Desk Associate

AUG '14 - DEC '17

PLANTS FOR HUMAN HEALTH INSTITUTE

Undergraduate Intern

SUMMER '13 & '14
